

# *Annotation Processing with Android II*

Andrew Grosner

[@agrosner/github.com/agrosner](https://github.com/agrosner)

Android Developer

***Raizlabs***

# *Breakdown*

- Getting Started
- Best Practices
- Demo -> **@IntentBuilder!**
- Limitations + Gotchas

*Getting Started*

# Create New Project

Create New Project

 **New Project**  
Android Studio

**Configure your new project**

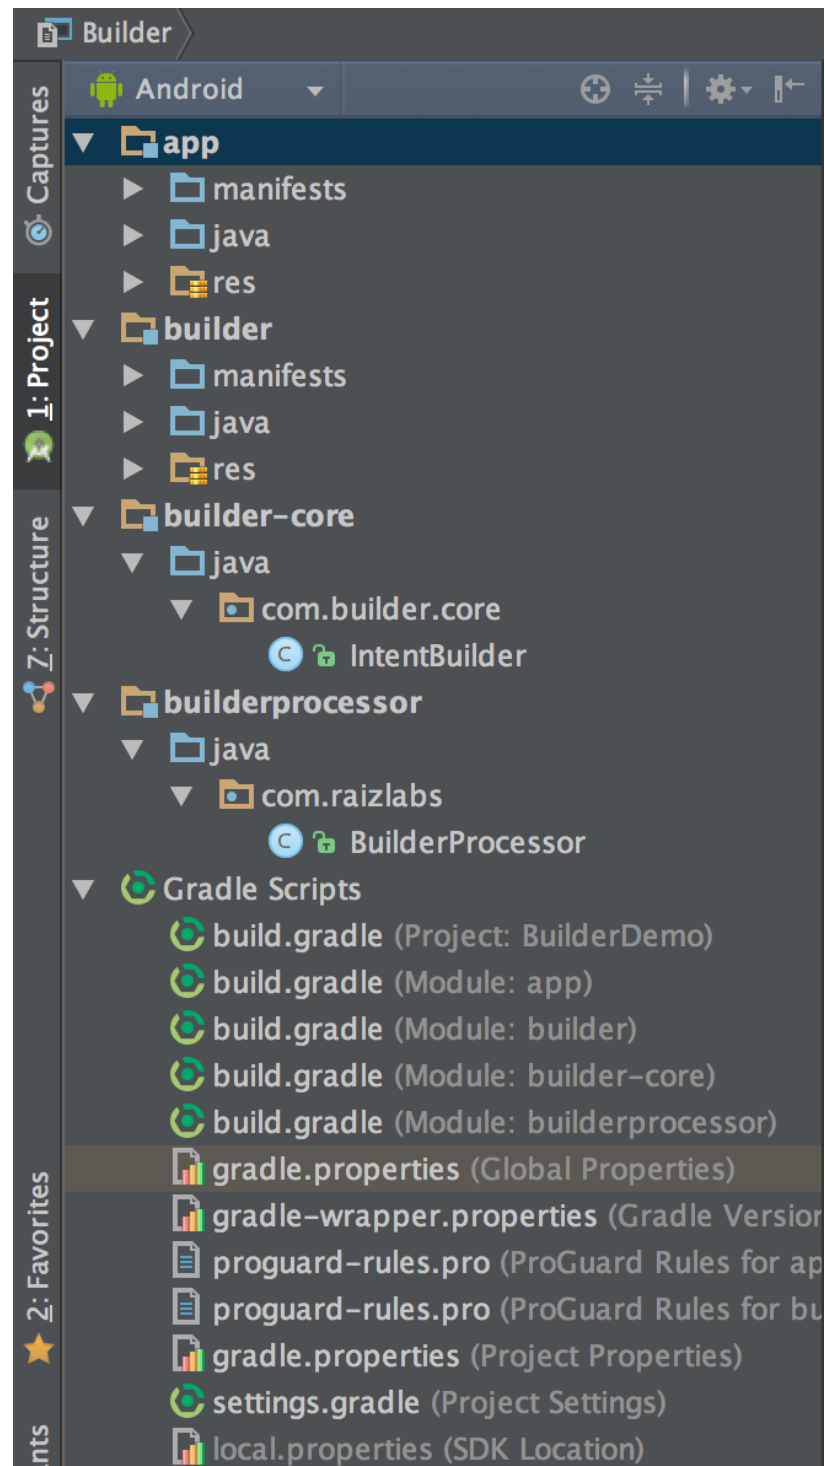

Application name:

Company Domain:

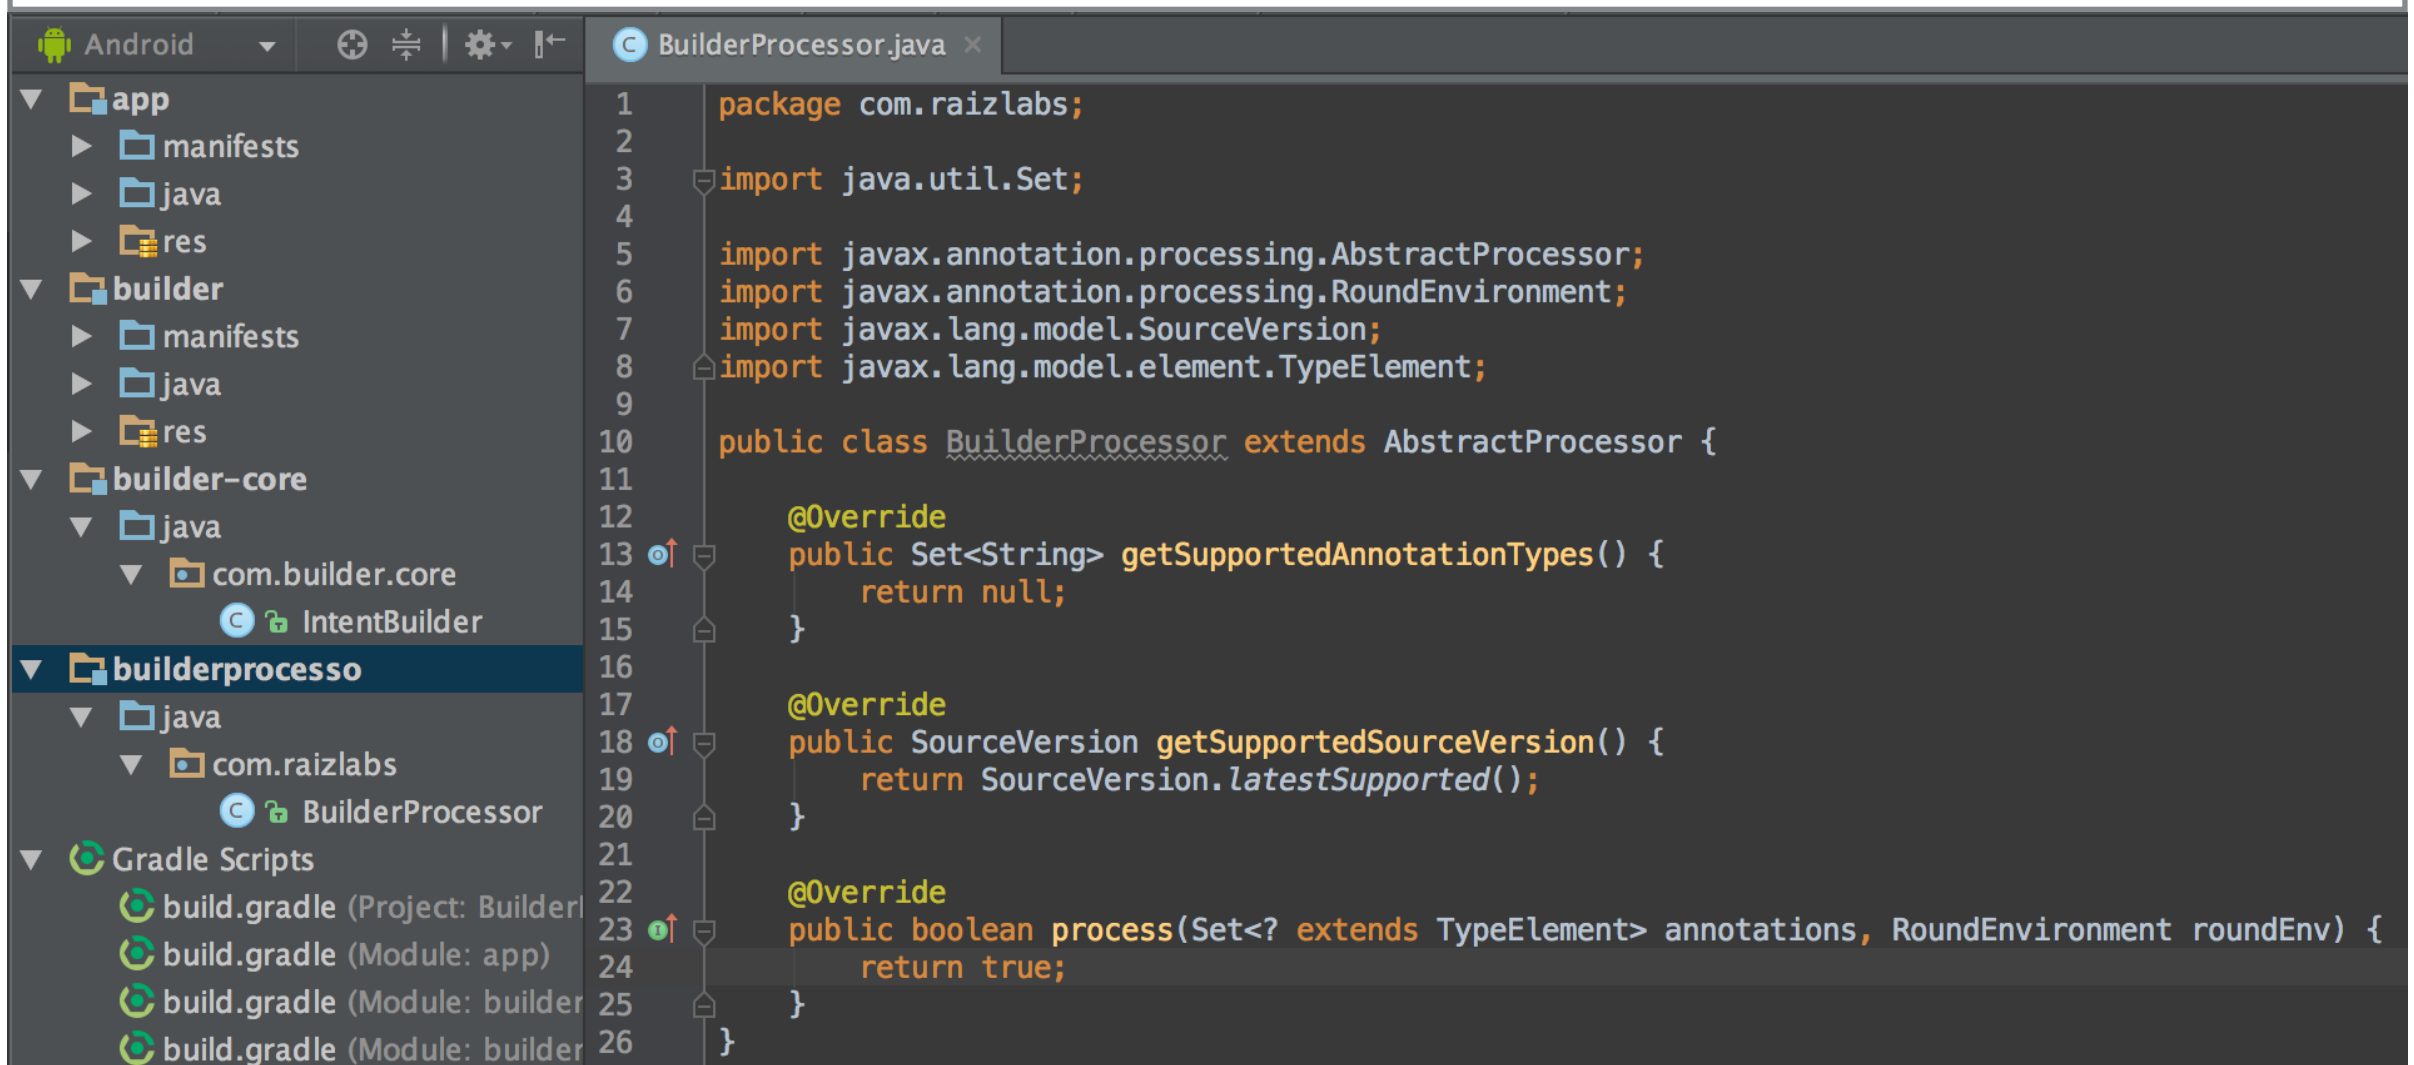

Package name:  [Edit](#)

Project location:  ...

# Add Projects

# Create the Processor

```
1 package com.raizlabs;
2
3 import java.util.Set;
4
5 import javax.annotation.processing.AbstractProcessor;
6 import javax.annotation.processing.RoundEnvironment;
7 import javax.lang.model.SourceVersion;
8 import javax.lang.model.element.TypeElement;
9
10 public class BuilderProcessor extends AbstractProcessor {
11
12     @Override
13     public Set<String> getSupportedAnnotationTypes() {
14         return null;
15     }
16
17     @Override
18     public SourceVersion getSupportedSourceVersion() {
19         return SourceVersion.latestSupported();
20     }
21
22     @Override
23     public boolean process(Set<? extends TypeElement> annotations, RoundEnvironment roundEnv) {
24         return true;
25     }
26 }
```

# Bring Your Dependencies

```
BuilderProcessor.java x builderprocessor x
1  apply plugin: 'java'
2
3  dependencies {
4      compile project(':builder-core')
5
6      compile 'com.squareup:javapoet:1.1.0'
7      compile 'com.google.auto.service:auto-service:1.0-rc2'
8  }
```

JavaPoet (<https://github.com/square/javapoet>)

Google Auto-Service (<https://github.com/google/auto/service>)

```
@AutoService(Processor.class)
public class BuilderProcessor extends AbstractProcessor {
```

*Best Practices*

# *Best Practices*

- Associate the processing steps with objects
  - The manager
  - Annotation Handlers
  - Definitions/Writers
- Use libraries like JavaPoet
- Keep as much code out of the processor as you can!

*Demo*

*Questions?*

# Feedback

Please take a moment to fill out the class feedback form via the app. Paper feedback forms are also available in the back of the room.
